

# WE NEED YOUR OPINION!

We've heard businesses routinely say that finding drug-free workers to fill positions is difficult. In response, the Tri-County Board of Recovery and Mental Health Services, Darke County Chamber of Commerce, and Coalition for a Healthy Darke County are collaborating with *Working Partners*® to address this issue.

However, we need DATA from our community to help us determine the specific impact of substance use on our county's workforce, and to develop strategies to address it.

Please complete this brief survey about your perceptions, attitudes, knowledge and business practices as they relate to preventing and addressing substance use in the workplace and by the workforce.

It will take about 7-12 minutes to complete this anonymous survey. See the IMPORTANT POINTS below for more information

*Follow the link or scan the QR code on your mobile device to take the survey:*

## IMPORTANT POINTS

- No personal questions are asked concerning you or anyone else's alcohol or other drug use.
- The survey is anonymous and therefore does not collect any personally identifiable information about you. Further, no attempt will be made to collect or connect responses to individuals.
- No attempt will be made to collect or connect responses to individual organizations.
- Your name or contact information will not be added to any list or shared with a third party. In fact, your name is not being collected. Your email address will only be used to email you the survey and reminders once you've been identified as a potential participant.
- At no time will anyone try to sell you anything or ask you to sign up for anything because of this survey.
- Your responses will be combined with others from our community to create a report summarizing the data. This information will be used by the Tri-County Board of Recovery and Mental Health Services, the Darke County Chamber of Commerce, and the Coalition for a Health Darke County to:
  - Direct strategies to support the business community.
  - Identify service gaps.
  - Strengthen the workforce.
  - Reduce employee costs related to substance use.
  - Empower employment through prevention and recovery.

***Thank you!***
